

Estimate Reconciliation Review

Prepared August 12, 2026 — GET-only HCP analysis; no HCP records changed.

331 unique review cases	9 Job-match decisions	322 active cleanup decisions
-----------------------------------	---------------------------------	--

What this means

The earlier nine records were only the strongest Estimate-to-Job exceptions. The live HCP screen found 326 submitted Estimate records without a formal Job link, extending back to April 2025. Four of the nine reconciliation records sit outside that current submitted cohort, producing 331 unique review cases. This does not mean 331 Jobs are missing; Braxton must classify whether each Estimate stays active, was canceled/declined, or is represented by an existing Job.

Safe workflow

Braxton answers one prepared question at a time in the private site. His answer is stored separately. It never creates a Job, archives an Estimate, contacts a customer, or changes HCP. Blaze and Jeff review confirmed answers before one-at-a-time production corrections.

Nine priority reconciliation decisions

1. Estimate 116165 — Larry Bowlin

Amount: \$15,405.00 **Likely:** Canceled / not approved

Question: Which Bowlin option, if any, was actually approved?

Pipeline says Approved, but HCP says canceled and the approved option was deleted.

2. Estimate 116083 — Rhett Matsen

Amount: \$7,975.00 **Likely:** Create Job

Question: Did Rhett approve this project and should a new Job be created?

No linked or plausible separate Job was found.

3. Estimate 116140 — T&B; Whitehead Family Partnership LLC

Amount: \$26,860.00 **Likely:** Create Job

Question: Was the Whitehead work approved for production and should a new Job be created?

No linked or newer customer Job was found.

4. Estimate 116023 — Canyon Creek Const.

Amount: \$6,920.00 **Likely:** Create Job

Question: Is this a separate approved project that still needs a Job?

Nearby Jobs are different addresses/scopes and link to other Estimates.

Candidate Job 275659: 1117 Moss; \$636,000.00; complete rated.

Candidate Job 275799: 1013 Moss; \$526,000.00; complete unrated.

5. Estimate 15606 — Berkeley Construction Inc

Amount: \$560.00 **Likely:** Not sure

Question: Did Job 274952 cover this Estimate, was it canceled, or is it still active?

A same-address canceled Job may represent this repair.

Candidate Job 274952: Studer - Section damaged; \$65,500.00; pro canceled.

6. Estimate 116044 — Big Timber Const.

Amount: \$6,620.00 **Likely:** Existing Job

Question: Is this Estimate the earlier version of completed Job 275821?

Same customer/address; Job 275821 was created 57 minutes later and is complete.

Candidate Job 275821: Hurst; \$7,330.00; complete rated.

7. Estimate 116082 — McCain Foods USA Inc.

Amount: \$1,260.00 **Likely:** Not sure

Question: Did Job 275954 include the motor, logic board, and capacitor quoted here?

Same address and only 2.6% amount difference, but the Job links to another Estimate.

Candidate Job 275954: B1 21E S; \$1,227.64; complete rated.

Candidate Job 275872: Dock Seal; \$1,574.90; complete rated.

Candidate Job 275965: Labor - PO #8202391340; \$715.00; complete rated.

8. Estimate 116160 — McCain Foods USA Inc.

Amount: \$685.00 **Likely:** Different work

Question: Is “Falcon Eye” the same work as Job 276039?

Close amount and next-day Job, but the scope names do not match.

Candidate Job 276039: CNTRL LST LGC 2.0; \$664.00; complete rated.

Candidate Job 275965: Labor - PO #8202391340; \$715.00; complete rated.

Candidate Job 276023: CNTRL LST LGC 2.0; \$332.00; complete rated.

9. Estimate 116137 — McCain Foods USA Inc.

Amount: \$7,870.00 **Likely:** Different work

Question: Was this another version of the Fryer Screen work in Job 275946?

Candidate Job predates the Estimate and lacks matching scope evidence.

Candidate Job 275946: Fryer Screen; \$6,288.07; complete rated.

Candidate Job 275954: B1 21E S; \$1,227.64; complete rated.

Candidate Job 275965: Labor - PO #8202391340; \$715.00; complete rated.

Broader cleanup queue

The private site contains 322 additional active Estimate checks, ordered oldest first so the most obviously stale records are reviewed before recent valid quotes. Each card shows customer, amount, address, creation/update dates, current HCP status, scope notes, and the evidence refresh date.
